INTRODUCTION

Health Manpower Statistics (HMIS) is an annual publication containing data on health medical personnel employed by the military departments within the Department of Defense (DoD). The publication is produced from a health manpower data base designed, established, and maintained by the Manpower Management Information Division of the Washington Headquarters Services/Directorate for Information Operations and Reports in support of the Office of the Assistant Secretary of Defense for Health Affairs.

Data are submitted annually, as of the end of the fiscal year, by the Military Departments in accordance with DoD Instruction 7730.36. The data, as submitted by the Army, Navy, and Air Force, have been consolidated to produce the statistics as presented in this publication. Formats 1-35 represent the active duty military (officer and enlisted) and civilian personnel. Those remaining, formats 36-53, represent the reserve and retired component personnel.

This report includes comparison data for the end of the fiscal year by authorizations and assignments by corps level and selected specialties. Other formats present recruiting summaries, gains by program source, force strength projections, and extensive displays of rank, years of service, and primary duty specialties for medical and dental officers. Education summaries show recruiting sources and projections for Armed Forces Health Professions Scholarship Program (AFHPSP) and graduate medical and dental education programs.
